WELCOME TO ALPHA DAY NURSERY

Alpha Day Nursery has facilities to cater for 45 children aged from 6 months to 5 years. Children at this stage of development learn essentially through play, and are at all times absorbing an enormous amount from what they see, hear and the learning opportunities on offer.

AIMS AND OBJECTIVES

Our underlying philosophy is based on the fact that every child is unique and as such benefits from being introduced at an early age to an environment that is friendly, warm and stimulating and that encourages him/her to develop their own interest which in turn gives them the confidence to progress. We aim to develop your child to their full potential in accordance with their interests and capabilities, while developing a positive relationship with our parents.

We help develop their sense of independence and ability to think and take decisions for themselves and be responsible for their actions. We promote equality in accordance with the Nursery policy on Anti-bias practice which caters for each child's needs in a multicultural society.

We provide emotional stability, cognitive development, social awareness and self-confidence in each child, through delivery of the Early Years Foundation Stage curriculum, working together with parents and other professionals in a secure and stimulating environment.

We take pride in our service provision which reflects what we have on offer:

- Newly decorated nursery

- Qualified and friendly staff team
- Early Years funding
- Strategic location with easy access to buses, trains and trams
- Modern kitchen with a qualified cook on the premises
